

Saskatoon Food Coalition

Our vision is of a food secure Saskatoon.

A community enjoys food security when all people, at all times, have access to nutritious, safe, personally acceptable, and culturally appropriate foods, produced in ways that are environmentally sound and socially just and that respect local sovereignty.

The Saskatoon Food Coalition is an umbrella organization that brings community organizations; food producers, processors, and businesses; government; researchers; and community members together to coordinate our efforts toward food security. Through policy development, research, and advocacy, we promote the values and goals of the Saskatoon Food Charter within our own organizations and throughout the Saskatoon region.

**We meet over lunch on the second
Wednesday of each month, from
noon until 2:00 p.m.
JOIN US!**
